MEMORANDUM FOR: Executive Secretary, Utilization Advisory Board

SUBJECT : Proposal for Utilization of TALENT Material in
Cartographic Production by CIA

1. Attached is a proposed plan for the utilization of TALENT material outside the TALENT Control System in support of the ORR town plan program. It is to be noted that the proposal presents, first, the methodology to be employed; second, the security precautions to be followed; and, third, the rationale that can be presented personnel who evince curiosity concerning the source materials from which the town plans are derived.

2. It is to be noted further that the basic sanitization scheme employs available collateral as cover for TALENT material. In cases where such collateral either does not exist or is too scant, the town plan produced will be retained in the TALENT Control System. Should the CHESSE classification prove too restrictive, the UAB will be requested to authorize the preparation of fabricated documents to backstop a non-TALENT publication.

3. If considered desirable, the Acting Chief, Geographic Research Area is prepared to discuss this proposal in detail before the Utilization Advisory Board.

FOR THE ASSISTANT DIRECTOR, RESEARCH AND REPORTS:
